About the Program

Idaho law requires the Crime Victims Compensation Program provide payment for sexual assault examinations for crimes committed in Idaho. 

*Victims of sexual assault should not be charged for the cost of the sexual assault examination.*

The Program is funded through fines and penalties assessed against offenders. No tax dollars are used to fund the program.

**ELIGIBILITY REQUIREMENTS**

- The crime must be committed in Idaho.
- Exam must be performed by trained personnel (Physician or Sexual Assault Nurse Examiner).
- Completed Sexual Assault Reimbursement Form, signed by patient or legal guardian (if patient is a minor).

**REIMBURSEMENT REQUIREMENTS**

- Third party payment sources must pay first (e.g. private insurance, government benefits, Indian Health Services).

Billing packet must include:

- Itemized bill (HCFA or UB92)
- Insurance Explanation of Benefits
- Examination report

**ADDITIONAL BENEFITS AVAILABLE**

Victims of sexual assault may be eligible for additional benefits through the Crime Victims Compensation Program for treatment costs for injuries resulting from the crime. To access these benefits, the victim must complete an Application for Benefits and submit it to the program for an eligibility review. If the victim has not received an application, one can be mailed to them.

Benefits available under the Sexual Assault Reimbursement Program are limited to the cost of the sexual assault examination. The victim is responsible for the cost of any treatment received unless they are eligible for general compensation benefits.

Eligible payments are based on rates established in the Workers’ Compensation Medical Fee Schedule. Providers are prohibited from collecting any unpaid portion of a bill from the victim or claimant, unless the program is unable to make the full allowable payment based on applicable laws and rules.

To request an application for compensation benefits, or if you have any questions about sexual assault examination reimbursement, please contact the program at:
